# YOUTH OLYMPIC GAMES

## 2010 SINGAPORE

Bulletin N°1 | May 2009

### OBJECTIVE QUALIFICATION!

On 16 August 2010, the Olympic Movement will gather together in Singapore, to celebrate sport for the first Youth Olympic Games, organised by the International Olympic Committee (IOC).

Cycling will be among the 26 sports featured on the programme of this major event, which will represent not just a sporting competition. The Youth Olympic Games will also offer a cultural and educational programme aimed at bringing together not only the sports movement but also young people from all over the world, to in the words of the IOC President, Jacques Rogge, «propose to young athletes from all over the world, a unique and powerful introduction and celebration of Olympism».

To take part in this big international gathering and to offer your country the prestige of gaining an Olympic title, initially the first step is to qualify your athletes. The International Cycling Union has already sent to you details on the current qualification system, which is based on the performances of the 2009 season. This first newsletter gives us the opportunity to remind you of the requirements, so that you can give yourself every chance to compete in the first Youth Olympic Games in history.

### THE SPORTS CONCEPT

Cycling will have three disciplines on the programme: Road (Road race and Time-Trial), Mountain Biking and BMX. Each of the 32 Federations that qualify will line up a team comprising 3 men and one woman in the Juniors category. Medals will be awarded to teams and not to individuals, based on a general ranking produced after competitions. The participation of athletes in the various races is as follows:

#### MEN JUNIORS

Mountain bike	1 athlete
Road (Time-Trial)	1 athlete
BMX	1 athlete
Road race	3 athletes

#### WOMEN JUNIORS

Mountain bike	1 athlete
Road (Time-Trial)	
BMX	

## YOUTH OLYMPIC GAMES | 2010 SINGAPORE

### QUALIFICATION SYSTEM

The qualification system for the Youth Olympic Games is principally based on two sets of criteria, related to «endurance» and «performance».

- The first («endurance») is calculated based on the final ranking of the 2009 UCI Juniors Nations Cup.
- The second («performance») is calculated based on the nations ranking for the UCI Mountain Bike and BMX World Championships for the 2009 season.

It is therefore obviously vital for your athletes to compete in these events, where their results could enable them to qualify your country for the Singapore Youth Olympic Games.

For further details on the subject of the qualification system, please consult the documents that the UCI sent to you last December. You will also find them on the UCI website or can obtain them at the address [road@uci.ch](mailto:road@uci.ch).
